Sea RIBs are an exciting range of boats from Portugal, which are now available to buy through the UK distributor, Mainsail Ltd.

Each model has evolved from years of experience in the Rigid Inflatable Boat market, and are technically designed and built by professionals committed to excellence.

The experienced Sea Ribs' team comprises people from the world of naval engineering, technicians, rescue operators, dive specialists and racing pilots. Their commitment to innovation is primary and they strive to deliver excellent designs and performance driven boats.

The team is continuously building on their knowledge and experience to deliver the highest quality and most exciting RIBs for their customers.

Sea Ribs Cabin Series 8.6m : 12m

The Cabin Series is our answer to the demands of this rapidly evolving market.

Safety and quality in this range are pre-requisite as this vessel is designed to cope with more demanding conditions.

The deep V hull and protective cabin provide fantastic performance, comfort and shelter without compromising on safety; with a clear view from the driving position.

The boat is essentially a "walk around", with a central cabin and plenty of deck space for both passengers and crew. This is a well balanced boat for owners who need to get around in comfort, whatever the weather.
